**9:00 \*Nova** “The Spy Factory” – NOVA exposes the hidden world of the high-tech, 21<sup>st</sup> century eavesdropping carried out by the National Security Agency or NSA. Its mission is to eavesdrop on the world -- from cell phones in Europe to pay phones in Afghanistan to e-mail messages from Pakistan to Baghdad. The program presents groundbreaking new evidence on how the agency listened in to the phone calls of key 9/11 plotters yet failed to alert the FBI. To show how current eavesdropping technology works, NOVA traces the path of an e-mail sent from Asia to the U.S. via fiber optic cables on the Pacific seafloor. “The Spy Factory” is a suspenseful and eye-opening report on the threat to privacy and the effectiveness of high-tech surveillance in the age of terrorism.
